

Our Impact at a Glance

Our projects have a clear goal to contribute to economic development and to creating better living conditions in developing countries and emerging markets. Measuring results is one of the defining characteristics of impact investing. We therefore regularly collect data from the clients we invest in and measure and monitor the impact of our projects on different levels using the Development Effectiveness Rating Tool (DERa).

Our strategic Focus

In our strategy for 2019–2023, we have chosen three focus sectors: renewable energy, financial inclusion/micro, small and medium-sized enterprises (MSME), and infrastructure.

In addition, we have anchored climate protection and gender equality as cross-sector objectives that we pursue in all our investments.
